

All Weather surface protection

GroundProtector

Hire or buy the UK's best value ground protection system.
QuickSafe nationwide delivery and installation service available.

GroundProtector access mats provide incredible value and efficient temporary ground protection cover. Suitable for pedestrian and light-to-medium weight vehicular traffic. The perfect solution for showgrounds, outdoor events, concerts, garden parties, golf courses, race courses, cemeteries, construction sites, utility or earthworks.

Currently available in grey, with an anti-slip tread pattern finish on one side and a 'diamond embossed' finish on the opposite side.

Easy to use - they can be locked in place to form a continuous roadway or work platform. Each mat weighs only 40kg and can easily be handled by two people.

Suitability

For temporary pedestrian and light to medium vehicular traffic on medium to firm ground. It is primarily designed to allow vehicles or materials to be transported over grassed surfaces.

The mats rely on the underlying ground for strength, they will not support vehicles in boggy, rutted or very soft ground conditions. Further information and guidance is available from our sales team.

- Extremely cost effective in use
- Protects property and grounds from damage
- Provides secure access for vehicles and pedestrians over soft ground
- Simple to transport, carry, lay and store
- Several fixing options available
- Manufactured in the UK from 100% recycled materials and 100% recyclable after use.
