

BBS Cone Topper

The innovative and simple Cone Topper transforms a series of standard traffic cones into an adaptable, cost-effective temporary barrier system for roadside, health & safety, maintenance and engineering applications.

The unit can be used either outdoor or indoor and fits to the top of any standard cone incorporating 3.65 metres of retractable webbing. By pulling the tape from one unit then connecting it to the top of another cone (placed up to 3.65 metres away) a temporary highly visible barrier is created.

Features:

- Contains 3.65m of high visibility chevron webbing (red/white, blue/white, green/white) in each cassette, which connects cones together
- 4-way connectivity
- High visibility orange Cone Topper
- Robust, hard wearing construction

- Streetworks and Pedestrian Safety ✓
- Safety and On-Site Security ✓
- Events and festivals ✓

Benefits:

- Easy to use
- Instant, temporary cone barrier
- Durable & hardwearing dye print that does not scratch or deteriorate
- Cassette retracting system supported by a 2-year warranty
- The Cone Topper and tape is more effective than a simple road cone
