

# BORDER ECO CABINS

A flexible solution for staff facilities on temporary sites to keep them safe, comfortable and able to get together for meetings or breaks to keep your site working smoothly and effectively.

Available for a minimum of 2 weeks' hire at competitive prices. Nationwide delivery.

Mobile and secure, the Border Eco Cabin comprises a 6-person canteen, private toilet facilities and a drying/changing/generator room, making it ideal for even the most challenging site locations.

It is solar-powered, but also has a 12v super-silent generator which stops and starts as needed to ensure the optimum power supply whenever required.

## KEY FEATURES:

- Road-towable, self-contained secure steel unit.
- Hot water boiler & microwave included.
- Fully-lockable security doors.
- Auto-frost protection.
- Solar-powered.
- Canteen for 6 people.
